A unique approach to skin care

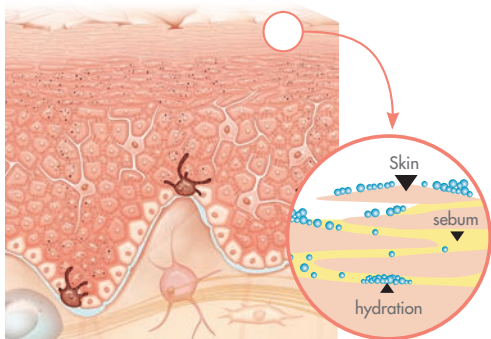

Preserve and maintain a healthy skin balance with 100% sterile formulas, for maximum safety without compromising efficacy.

PHYSIO-compatible ingredients

To imitate the composition of healthy skin, the new generation of Tolérance Extrême contains ingredients only essential for maintaining proper skin balance and hydration.

	SKIN	TOLÉRANCE EXTRÊME
AQUEOUS PHASE	Water Glycerol	Avène Thermal Spring Water Glycerin
OILY PHASE	Triglycerides Free fatty acids Waxes Squalene	Caprylic / Capric triglycerides Safflower oil Shea butter Squalane

PHYSIO-fine textures

Developed with an ultra-fine texture, helps formula to unify seamlessly into the skin for optimal hydration, restoring a healthy complexion.

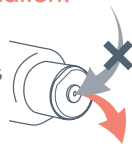

Sterile Cosmetics: total respect for skin balance

MAJOR INNOVATION

Formulas free of superfluous ingredients and preserved due to a unique combination:

- Patented sterilization* of formulas
- Perfectly hermetic patented packaging*
- Rigorous selection of only essential ingredients

Result: Your skin care remains sterile and protected throughout use and is absolutely free of all forms of preservatives.

Therefore, **STERILE COSMETICS** products contain only essential ingredients.

*Patents pending

Avène's dedication to safety

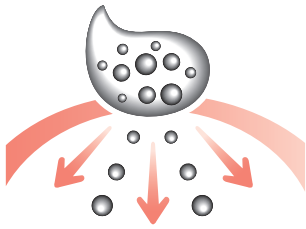

Sterile Cosmetics eliminate the need for preservatives but maintain the integrity of those ingredients essential to the skin. D.E.F.I system guarantees a sterile formula throughout the use of the product.

Seven, synonymous with perfection

The skin is the last organ to be nourished and usually needs reinforcements. Tolérance Extrême formulas contain essential ingredients that are similar in nature and action to the skin.

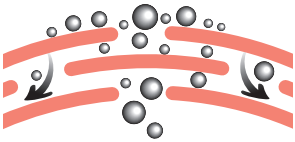

PHYSIO-compatible ingredients

Mimics the components of the hydrolipidic film and stratum corneum – preserving the skin ecosystem.

PHYSIO-fine textures

Refined textures to unify seamlessly into the skin.

Sterile Cosmetics

Eliminates the need for preservatives, contains only what is essential for healthy, hydrated skin.

Ingredients

MAXIMUM

PRESERVATIVE-FREE • PARABEN-FREE • FRAGRANCE-FREE • COLORANT-FREE
HYPOALLERGENIC • NON-COMEDOGENIC

Reformulated! Tolérance Extrême Cleansing Lotion

Gentle, no-rinse cleanser removes dirt, oil and makeup. A light, milky texture leaves skin soothed and hydrated.

- 79% Avène Thermal Spring Water
- pH 6.0

NEW! Tolérance Extrême daily moisturizers

Emulsion – Normal to combination skin

Lightweight, milky texture allows for optimal fusion with the skin. Delivers soothing and moisturizing properties in a rapidly absorbing emulsion.

- 78% Avène Thermal Spring Water
- pH 6.0

Cream – Dry skin

Velvety yet non-greasy texture allows for optimal fusion with the skin. Delivers soothing and moisturizing properties in a rapidly absorbing cream.

- 64% Avène Thermal Spring Water
- pH 6.0

PRESERVATIVE-FREE • PARABEN-FREE • FRAGRANCE-FREE • COLORANT-FREE
HYPOALLERGENIC • NON-COMEDOGENIC

NEW! Tolérance Extrême Mask

Intensely calming and hydrating moisture mask, revitalizes skin by diffusing moisture throughout leaving a soft, velvety finish.

- 62% Avène Thermal Spring Water
+ 15% Glycerin for intense hydration
- pH 5.5

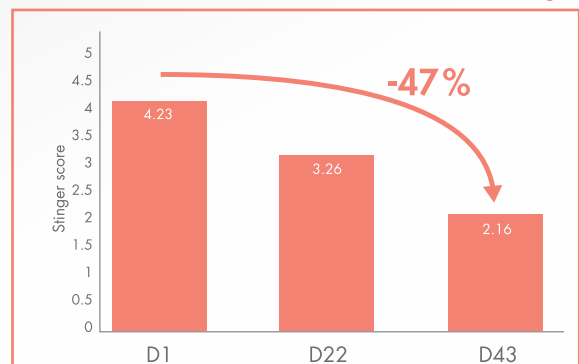

Maximize benefits: Tolérance Extrême regimen

Tolérance Extrême Cleansing Lotion maximizes the benefits of Cream / Emulsion applied afterwards. A significant reduction in skin reactivity was clinically shown when using the Tolérance Extrême regimen.

Reduction in skin reactivity¹

Very good tolerance post-procedure with:

Cream or Emulsion + Cleansing Lotion + Mask + Avène Thermal Spring Water

¹ Clinical study of 31 Stinger-positive women (aged 20 to 52 years), 2 applications / daily of Tolérance Extrême Cream, measurements taken at D1 - D22 - D43. Centre de Recherche Pierre Fabre Hôtel-Dieu Toulouse.
